Dangerous Display Promo Picture Disk (USA)

This is a "display only" picture disc that was sent to select record stores to display on their walls. Â There is NO MUSIC on this disk (and no grooves). Â Same "LP cover" picture on both sides. Â There is a small hole at the top where a tack or a nail would have gone to post the disc to the wall. Although a few test pressing of the Dangerous picture disc were made (with "piano music"), it was never officially released when Epic/Sony determined Dangerous was going to be a 2LP set.
