

Extremely Rare 1982 US Advance Promotional 6 Track LP Album with picture labels...

It's housed in a generic plain white card sleeve with custom picture sticker on the front and includes: a 24 page booklet, a 6 track vinyl LP, a fold-out poster and the scarce promotional 2 track 7in. single of Someone In The Dark.

This album set is very rare because CBS sued MCA Records and claimed they had signed a new deal with Michael in 1982 and were about to release Thriller that December. For this reason, the production had to be withdrawn due to this conflict of interest between the 2 record companies, as per a court order against MCA.

This is the rarest version ever since it contains the promotional radio 7in. single of the unreleased song 'Someone In The Dark' Short Version b/w 'Someone In The Dark' Long Version that alone is worth more than 1000 USD since it was released as a deejay promo 7in. single only.

For more information on this piece of memorabilia, see the [full listing](#) .
